RED SONJA

Red Letter Day for REH Fans

2004 was a great year for fans of sword-and-sorcery master *Robert E. Howard*, thanks to Dark Horse's superb ***Conan*** series. And now Dynamite Entertainment has a plan to make 2005 an equally good year... and their plan involves a fiery-haired beauty with an aptitude for edged weapons.

Red Sonja, the sword-wielding warrior-woman first introduced in the pages of Marvel's ***Conan the Barbarian*** more than thirty years ago, is returning to comic shop racks later this year, courtesy of Dynamite Entertainment. And to ensure that readers have no excuse to pass up this hot new series, Dynamite is offering the first issue at an irresistible bargain price.

Ironically, while ***Red Sonja*** is the second most successful comic book series drawn from the works of *Robert E. Howard*, the author himself might not even recognize the character if he were around to see her comic book exploits today. "Red Sonja *was* a *Robert E. Howard* character," *J. Allen* of Dynamite Entertainment said, "but not the Red Sonja that fans have come to know and love. She was more of a swashbuckling pirate in her original incarnation. *Roy Thomas* and *Barry Windsor Smith* really helped to define the character that we now know and love. It's amazing how they crafted her and turned her into this unbelievable, and multi-dimensional, warrior. She really became more popular than Conan for a while. Unfortunately, she wasn't treated as such, sales dropped, and she's been dormant for quite awhile. We're changing all of that!"

With ***Conan's*** success inspiring renewed interest in all of Howard's creations, Dynamite wasn't the only publisher interested in revitalizing ***Red Sonja***. "There were quite a few suitors," Allen said. "We put in our proposal and promised that we would treat her like the primary character as she deserves to be treated. Great writers (*Michael Avon Oeming* and *Mike Carey* certainly fit *that* bill), great artists (no one knows just how talented *Mel Rubi* is—but they're going to find out!), and powerful cover artists (we've got *Alex Ross, Greg Land, Michael Turner, Joseph Michael Linsner, John Cassaday, Michael William Kaluta, J.G. Jones, Adam Hughes, Art Adams*... and the list goes on and on) to get fans and retailers attention—seriously, we can't lose! We've also secured two great colorists (it hardly gets better than *Richard Isanove* and *Caesar Rodriguez*) and great letterers (Comicraft—who else?). And if that's not enough, we're offering the introductory issue of the ongoing series for just a quarter! We're *really* putting our money where our mouth is, considering this is fifteen pages of original story and art for just a quarter! And did we mention, it's only *a quarter*?!"

For readers who are unfamiliar with ***Red Sonja***, co-writer *Mike Carey* offered an introduction to the heroine.

"Sonja is the quintessential survivor. She's a woman getting by in a man's world, to use a cliché—but she's doing it without accepting any of the traditional roles and relationships that men use to define women. By wearing armor, bearing arms, selling herself out as a mercenary instead of, say, a prostitute, she's cutting loose from the script. You can get a lot of narrative tension out of that situation, especially when she's interacting with other women.

"Sonja's world is the Hyborian world of Conan: a time of great turmoil and conflict when civilizations are sliding against each other like tectonic plates and everything is up for grabs. Those political upheavals were always there in the background of the Conan stories, and they're our backdrop too.

"As to her goals—well, she's not saying. She's not given to opening her heart very much. She's had a traumatic life, and she's known what it is to be a victim. To some extent she may feel like she still has something to prove there. For the most part she's a pragmatist and she does what she has to do to get by."

"Obviously Sonja resides in a world we *think* we know, a world we *think* we've seen it before," co-writer *Michael Avon Oeming* continued. "A world full of magic, barbarians, swords and blood cults, and on the surface this is true, but *Mike Carey* and I want to present a real world for Sonja and her readers. A world of mythology and dimension where a way of survival has lead to a way of living. Sonja's life, her origins, tie in to life's mission. She isn't simply wandering the earth; now she is a seeker. Sonja hunts for a darkness in the land that molded her and now looms over the world. That's pretty much the catalyst for her adventures."

Do the writers plan to follow the Marvel Comics interpretation of Sonja, or are they using this as an opportunity to start fresh? "A bit of both," Oeming said. "I like to think of it as building on the foundation created at Marvel, but clearly by the end of the first arc, she'll be her own character with her roots sprouting from *Roy Thomas*' work and the Marvel books."

"Without slapping past continuity in the face, we're putting our own spin on her," Carey said. "As Michael's already said, there's a lot of wiggle-room here because Sonja has never been developed all that much as a character. What we're doing is filling in some of the blank spaces on the canvas, and making her work as an individual rather than a heroic type."

Both writers are quick to acknowledge the powerful influence of *Roy Thomas*' Red Sonja stories. "The shadow Roy casts is *huge*: those were some of the best comics adaptations of prose works there'd ever been at that time, and I still re-read them with pleasure," Carey said. "Inevitably, comics storytelling moves on and conventions change: our approach will be different, but are we indebted to *Roy Thomas*? Well, yeah. Damn *right* we are!"

"I love Thomas's ability to tell a story—not the specific words he writes, but the energy and imagination he brings to the plot," Oeming added. "I can feel the violence and danger when I read Thomas's work."

Does Sonja exist in the same reality as Conan, or are there differences? "I don't think of it as an alternate Hyboria," Oeming said. "As Mike said, this *is* the world of Conan. But it's a big world—and since they don't have newspapers or cell phones, they could easily never cross paths or bump into each other at any moment."

"Yeah, it's the Hyborian age," Carey added, "and Conan is out there somewhere. But Sonja goes her own way..."

In order to develop more complex storylines, Oeming said that the focus of ***Red Sonja*** would be on story arcs rather than standalone tales. "We've talked about each arc being an 'act' for a larger story."

"We're not ruling out the odd single issue story (like the #0 issue) where it fits and serves a purpose," Carey added. "For the most part, though, we're working in big arcs because we're working with big events. There's a *huge* canvas here, and Sonja's story is a story told against a backdrop of seismic struggles: we feel it's best to give the character room to breathe and to try to reflect that epic scale in the way *we* approach the stories."

What long-range approach to Sonja's saga are the writers taking? Are they constructing the series chronologically, starting with a younger Sonja, or are they jumping into the adventures of Sonja in her prime, filling in the backstory as storylines allow? "As with the Conan stories, there's no strict necessity here to tell Sonja's history in a strict, chronological way," Carey said. "It's more like you're picking out threads from a tapestry, or focal points from a continuous movement. There'll be discontinuities, yeah, and there'll be moments when you think 'well, how did she get there from here?' That doesn't detract from the ongoing story: I think it piques people's interest and raises their expectations.

"In the long term, I think we'll be looking to bring some of the paradoxes and conundrums of this world into focus. Sonja is a morally ambivalent figure, and sometimes she'll be fighting on the wrong side simply by virtue of fighting at all: siding with chaos against order—or at least with flux against stability. Some of the stories in the series will raise the stakes for her and for the people she encounters, and force those nasty moral equations into the foreground."

Exploring Sonja's youth is an idea that appeals to Oeming. "I'd like to visit the younger Sonja as we go," he said. "We will definitely deal with her origin, but I think how she was raised and educated is just as important- if not more important that that 'moment of creation.' After all, what happened to Sonja happens to many women in that era—but what sets Sonja apart is how she *reacted* to it, and who helped her along the way. I'd *love* to deal with that!"

Are Carey and Oeming developing a supporting cast for the series, or will Sonja be cast as a loner? "I think we will be seeing recurring characters for sure... as long as she leaves some alive or doesn't get them killed!" Oeming joked.

"We've got some ideas already for characters who will weave their way in and out of the series, discovered in odd places and odd roles," Carey explained. "That's part of the pleasure of a picaresque formula like this. There'll be recurring villains, of course, but also—and maybe unusually for a loner like Sonja—there'll be companions who recur, too. Even, in a strictly limited sense, a love interest..."

Okay, let's talk about that costume--what sort of person wages battle against edged-weapon-armed enemies wearing only the skimpiest of chain mail? Does she ever wear anything more protective, or is she stuck in the chain-mail bikini forever?

"*Ah-HA!*" Oeming exclaimed. "I *hate* that when I see it in films—but in comics, its always worked, for the same reason Batman wears a cape you can easily tangle him in. Lets face it, men are *easily* distracted. *Frank Miller* used Batman's Bat symbol as a 'target' for thugs shooting at him—he had armor under it in ***Dark Knight***.Think of Sonja's body in the same way—the men are looking at that as she chops off their heads. Like I said, men are *easily* distracted..."

"With armor, you either cover everything up in inch-thick plate and lumber around like a stegosaurus, or you go for light and limber and rely on your agility to get you out of trouble," Carey said. "Sonja has gone for the latter, and I think we all respect that choice."

Both Carey and Oeming are convinced that a major factor in the success of the new *Red Sonja* will be the powerful artwork of *Mel Rubi*. "As an artist, I put lots of description of mood and setting, " Oeming (who has won critical and fan praise for his artwork on ***Powers*** and other series) said. "Mel took that and went with it and made it his own. A common phrase you'll find in a ***Sonja*** script is 'Frazetta-like'. *Frank Frazetta* and *Alan Lee* balance out the mood, and Mel puts that underneath his own sensibilities."

Do the writers find themselves working for Rubi's strengths, or is he able to illustrate anything they throw at him? "We're just getting the hang of each other at the moment," Carey said. "It's a very absorbing and pleasurable process, and so far it's been entirely positive in both directions. Mel is *amazing* at giving Sonja a believable and compelling stage to move on, and at articulating the character herself. It's only going to get better as we learn to run with each other's rhythms."

What can readers expect in the first couple of issues? "***Red Sonja #0*** is a taste of things to come—it sets the mood," Oeming said. Carey describes the zero issue as "a vignette—a reminder of what Sonja is and what she does, and what it's like to live in her world. It's short and anything but sweet."

As Oeming tells it, the first issue is where readers will "*really* see Sonja's world start to come to life." Carey expounds on that a bit. "In the first issue, we pull back and reveal. Like going from close-up to panoramic longshot. You see where Sonja is in her life at this point, and what's going on around her. You get the big picture—or at least the *start* of it...."

Does Dynamite plan to complement the ***Sonja*** series with any oneshots or graphic novels? "We've got a few things planned and some creative teams that we'll be revealing in the weeks to come.," Allen said. "Stay tuned!"

Are there plans to bring any other Howard characters (such as Solomon Kane or Bran Mak Morn or King Kull) to comics? "There will be announcements forthcoming—but right now, the focus is on ***Red Sonja***." Allen said.

And of course, the inevitable crossover question arises: is there any chance that we might see a meeting between Conan and Red Sonja? "That's a great idea," Allen said. "But for now, we have lots of stuff lined up, and would want to make sure that everything is perfect before working on that. The good thing is, we've got a great product, and if that did come together, it would be worth the fans wait!"

Red Sonja #0, a 25¢ comic with cover art by *Greg Land*, is scheduled for April release. The first issue of the ongoing series will follow a month later.
